PIP |  INDUSTRIAL STARTER

PIP Europe

In 2006, PIP® opened sales offices and warehouses in Italy, Greece and Spain.

These activities were initiated in collaboration with local partners, who invested in the company to promote its rapid growth through extensive operational plans throughout Europe.

Although the business has grown in Europe, economic instability and inherent challenges have led to many unforeseen structural changes. However, PIP®'s presence in Europe has resulted in strong alliances and relationships.

Most recently, in 2016, PIP® decided to consolidate all of its European operations by opening a single entity, PIP France.

The challenge for PIP France was to harmonize its product line and market entry strategy.

Within two years, PIP France doubled sales and optimized the offerings of PIP®'s main brands-G-Tek® for hand protection and Bouton® for eye protection.

Given the enormous success achieved in such a short period, in 2018 PIP France joined the PIP Global family as the hub of our activities in France and Northern Europe.

As of today, PIP Global safety's position in the European market is much stronger thanks to the acquisitions of Industrial Starter Group and Kit Safety, which allowed PIP to expand its presence with offices in Italy, Spain, Poland, the Czech Republic, and Ireland.

Important brands recognized worldwide

YOUR WORK MATTERS, WORKWEAR

Safety, comfort and style for workers start here. Our challenge is to design durable, comfortable and attractive garments so that workers feel good about what they wear to work. Products characterized by the use of technical materials in combination with Italian pattern and style. Specialists in stretch fabric.

WHEN WORKING AT HEIGHT USE MAXIMUM SAFETY

A whole range of fall arrest systems, devices and lifelines for work at height. Regardless of the risk and level, Akrobat offers you the solution for your needs, complying with the strict EU regulations for work at height.

CONFIDENCE TO DO THE JOB™ WORK GLOVES

G-Tek® is where mechanical protection meets optimum levels of dexterity, fit and form in technical gloves. With the most versatile line of supports and coatings to meet every worker's needs.

ADVANCED LENS TECHNOLOGIES IN SAFETY EYEWEAR™ VIEW PROTECTION

Bouton® designs innovative and stylish protective eyewear that workers want to wear. Our high-performance glasses offer superior comfort and feature advanced lens technology that protects and enhances vision.

ADVANCED NON-SLIP TECHNOLOGY DISPOSABLE GLOVES

Grippaz® technology features a fish scale pattern that provides unparalleled grip performance. Grippaz® gloves are ergonomically designed to provide traction grip on both the outside and inside of the glove. The proprietary Grippaz® nitrile formula offers greater flexibility and fits more snugly than traditional gloves, providing maximum comfort, durability and dexterity.

New clothing made from recycled material*

*Read the specifics in the article composition

04527B POSH

CE CAT. I - EN ISO 13688:2013

Softshell jacket with high levels of waterproofing and breathability, equipped with high visibility inserts on the shoulders and chest (even if it does not meet the requirements of the specific EN20471 standard). The front has two lower pockets and one on the chest, the latter has a taped zip while inside two large pockets ensure high capacity. Drawstring at the waist and concealed hood are two further technical features of the product. The garment is made from recycled materials and in line with this choice, the packaging is in cardboard boxes and not in plastic.

Composition: 96% recycled polyester 4% spandex bonded with 100% recycled fleece

g/m²: 310

Membrane TPU: W/P 8.000 mm e MVP 3.000 g/m²/24 h.

Sizes: S-M-L-XL-XXL-3XL-4XL-5XL

Colors:

081 anthracite gray with black inserts

Packing: 10 pcs.

04527D

M/2 - L/2 - XL/2 - XXL/2 = 8 box

04508B KIND

CE CAT. I - EN ISO 13688:2013

Waterproof and breathable softshell made entirely of recycled material, equipped with three front pockets and two large full pockets; drawstring at the waist for a better fitting. This jacket match with Boom pants 9030B, 9032B and 9035B. The garment is made from recycled materials and in line with this choice, the packaging is in cardboard boxes and not in plastic.

Composition: 100% recycled 150D polyester bonded with 100% recycled fleece

g/m²: 320

TPU membrane (recycled): W/P 3.000 mm e MVP 1.000 g/m²/24 h.

Sizes: S-M-L-XL-XXL-3XL-4XL-5XL

Colors:

040 blue inserts black,

081 anthracite gray with black inserts,

Packing: 10 pcs.

04508D

M/2 - L/2 - XL/2 - XXL/2 = 8 box

8883B TUBE

CE CAT. I - EN ISO 13688:2013

Technical sweatshirt from the Extreme line with hood, two front pockets, a document holder on the chest and two large internal pockets. The garment can be combined with products from the Extreme line or also with other trousers. The sweatshirt also has the characteristic of using recycled polyester which, together with the cotton and the cardboard packaging, make it a product that can be appreciated by those looking for "green" solutions.

Composition: 65% recycled polyester, 35% cotton

g/m²: 280

Sizes: S-M-L-XL-XXL-3XL-4XL-5XL

Colors:

040 blue inserts black,

081 anthracite gray with black inserts,

Packing: 6 pcs.

8883D

M/1 - L/2 - XL/2 - XXL/1 = 6 box

04824 ANTELAO

CE CAT. I - EN ISO 13688:2013

Sweatshirt with long zip, hood, two front pockets, cuffs and bottom with elasticated rib. Stabilized fabric to prevent shrinkage.

Composition: 65% polyester, 35% cotton
g/m²: 280

Sizes: M-L-XL-XXL-3XL

Colors:
040 blue,
060 black,
080 gray

 Single packed in a poly bag
Packing: 20 pcs.

STRETCH

BELT INCLUDED

210 g/m²

 **4 WAY
STRETCH**

9035B TROUSERS BOOM 4 SEASONS (4 WAY STRETCH)

CE CAT. I - EN ISO 13688:2013

4-way stretch softshell trousers which, thanks to their intermediate weight, allow the use throughout all the year. The garment has a knee pad holder, ruler pocket, two back pockets and a large side pocket. Two side inserts in stretch fabric increase comfort at the waist while the high visibility inserts offer a minimum of night visibility. Supplied with belt.

Composition: 92% polyester 8% spandex with dual function treatment: quick drying of water and expulsion of perspiration through the fabric - "3M SCOTCHGARD treatment"

g/m²: 210

Sizes: S-M-L-XL-XXL-3XL-4XL-5XL

EN 14058:2017 Protective clothing. Cold environments.

The standard specifies requirements and test methods for the performance of individual garments for protection against the effects of cold environments at -5°C. These effects include not only low air temperatures, but also humidity and air velocity. Excluded from the standard, suits for protection against cold, footwear, gloves and separate headgear.
