M-PRO MULTIPROTECTION CLOTHING

With almost 60 years of experience in the production and distribution of PPE, we are pleased to present the new ISSA LINE M-PRO project, a complete range of multi-purpose clothing. In developing this project we have been guided by the desire to offer, to those who work in areas of high risk, the maximum and most up-to-date protection against the important risks to which they are subject in carrying out their work. In line with what has just been said, PPE has in fact the maximum number of possible protections, resulting in the majority of cases Pentavalenti, Atex and III Category certificates. Finally, the tradition accumulated in workwear helped us not to underestimate the aspects relating to comfort and wearability, non-secondary characteristics for those who must wear these garments for the whole day.
